CONTENTS

What's in this report

–	Executive Summary What this audit found
01	Health score Where the 62 comes from
02	Money map Where the recoverable spend is concentrated
03	Findings 1 findings, ranked by impact
04	Evidence The evidence, finding by finding
05	Roadmap & action plan The phased plan — what to do, in order

What this audit found

The single most important finding in this audit: **\$206**

Lead issue: Seg waste. **\$206**

Why it matters: Findings are ranked by leverage — the most damaging issue leads (severity and root-cause gravity first, then confidence and recoverable spend), not simply the biggest dollar figure.

Next move: Start with the first issue in this report, then re-run the audit after the next full reporting cycle to measure the delta.

THIS PERIOD	PER QUARTER	ANNUALIZED
206	≈ 618	≈ 2,472
identified opportunity	if the pattern persists	directional projection

Projection multiplies the recoverable spend measured this period and assumes spend and performance patterns remain stable.

01

HEALTH SCORE

Where the 62 comes from

The audit has an overall health score, but no reliable component-level breakdown for this run.

02

MONEY MAP

Where the recoverable spend is concentrated

Only findings with measured financial evidence appear here. Structural risks stay out of this chart unless the engine can quantify them.

FINDING	RECOVERABLE
Seg waste	USD 206

Overlap-adjusted recoverable spend by finding — the amounts sum to the USD 206 headline total.

03

FINDINGS

1 findings, ranked by impact

Findings are ordered by leverage — severity and root-cause gravity first, then confidence, then recoverable spend.

#	FINDING	SEVERITY	IMPACT
1	Seg waste	Medium	USD 206 recoverable

Money impact is shown only when the account data supports a reliable estimate. Other rows are still important business risks.

04

EVIDENCE

The evidence, finding by finding

Each finding shows what is happening, the business impact, supporting evidence, confidence, and the recommended fix.

Seg waste

What is happening: Seg waste

Estimated business impact: **\$206**

EVIDENCE

VALUE

Recoverable spend

USD 206

What this means for you: fixing this can recover **USD 206** in the next comparable period.

1. Review this issue in the ad platform and apply the recommended change.
2. Re-run the audit after the next full reporting cycle.

05

ROADMAP & ACTION PLAN

The phased plan — what to do, in order

This is your action plan, sequenced by leverage: start at Phase 1 this week (stop active waste), then tighten efficiency, then build durable structure. Each item shows the move, the effort, and what it recovers.

Phase 1 WEEKS 2-4

Tighten efficiency — pull the high-impact inefficiencies back toward target.

1. **Seg waste:** Apply the recommended fix in the platform. **~1 HOUR** **USD 206 recoverable**

MT

METHOD

Benchmarks, confidence & assumptions

- **Numbers.** Every figure comes from verified account data. The report does not invent chart values.
- **Money figures.** Each finding shows the spend recoverable by that single fix. Where several findings describe the same wasted spend from different angles (campaign, audience, device, geography), it is counted once — those findings are labeled "same spend (counted above)". The headline "Recoverable this period" (USD 206) is the sum of the overlap-adjusted amounts, so the finding figures add up to it exactly.

- **Benchmarks.** No benchmark section is rendered because no benchmark facts were available.
- **Confidence.** Confidence labels reflect data coverage, severity, and sample notes.
