Health score 76/100	Findings 3	Readiness FULL
-------------------------------	----------------------	--------------------------

Executive Summary

PKR 3,465 in this segment is recoverable by reducing or excluding it. Reallocate to segments performing at or below the PKR 146 baseline CPA. is the single most important number in this audit.

Lead issue: The TUESDAY dayOfWeek segment is wasting PKR 3,465. The TUESDAY dayOfWeek segment runs at PKR 195 CPA vs a PKR 146 platform baseline — PKR 3,465 of that spend is excess cost above baseline efficiency.

Why it matters: Findings are ranked by recoverable spend/revenue, confidence, and implementation ease, not by severity label alone.

Next move: Fix SEG-WASTE-001 first, then re-run the audit after the next full reporting cycle to measure the delta.

Opportunity Projection

This period 3465
Quarterly 10395
Annualized 41580

Projection multiplies the measured period impact and assumes spend and performance patterns remain stable.

Where the 76 comes from

The score breakdown shows which account areas are healthy and which areas generated findings.

3 findings, ranked by impact

Findings are ordered by measured recoverable spend or revenue first, then confidence, then ease of implementation.

1 | The TUESDAY dayOfWeek segment is wasting PKR 3,465 SEG-WASTE-001 | MEDIUM | PKR 3,465 in this segment is recoverable by reducing or excluding it. Reallocate to segments performing at or below the PKR 146 baseline CPA.

2 | No Google brand campaign detected — brand traffic is unprotected OPP-001 | MEDIUM | Unprotected brand searches allow competitors to capture your highest-intent traffic at no cost to you.

3 | Many active Google keywords are getting zero impressions KW-010 | MEDIUM | Zero-impression active keywords inflate account clutter, mask Quality Score problems, and can indicate disapproved ads that need immediate attention.

The evidence, finding by finding

Each finding shows what is happening, the business impact, supporting evidence, confidence, and the recommended fix.

MEDIUM - The TUESDAY dayOfWeek segment is wasting PKR 3,465

Rule SEG-WASTE-001

What is happening: The TUESDAY dayOfWeek segment runs at PKR 195 CPA vs a PKR 146 platform baseline — PKR 3,465 of that spend is excess cost above baseline efficiency.

Estimated business impact: PKR 3,465 in this segment is recoverable by reducing or excluding it. Reallocate to segments performing at or below the PKR 146 baseline CPA.

Segment TUESDAY

Currency PKR

Dimension dayOfWeek

Confidence: medium. Ease of implementation: easy.

- Review the TUESDAY dayOfWeek segment in the platform UI to confirm the underperformance.
- Exclude or down-bid the TUESDAY segment after confirming the trend on the next full reporting cycle.
- Reallocate the recovered budget to segments at or below baseline CPA.

MEDIUM - No Google brand campaign detected — brand traffic is unprotected

Rule OPP-001

What is happening: None of your 27 Google campaign(s) appear to target branded keywords. Without a dedicated brand campaign, competitors can bid on your brand name and capture high-intent searches that should convert at a fraction of your non-brand CPA. Brand campaigns typically achieve 5–10× better CTR and ROAS than non-brand.

Estimated business impact: Unprotected brand searches allow competitors to capture your highest-intent traffic at no cost to you.

Estimated impact Unprotected brand searches allow competitors to capture your highest-intent traffic at no cost to you.

Campaign Count 27

Brand Campaign Detected false

Confidence: medium. Ease of implementation: easy.

- Create a dedicated branded keyword campaign with exact and phrase match variants of your brand name.
- Set bids high enough to maintain brand impression share above 90%.
- Add competitor brand terms to a separate observation campaign to monitor intent traffic.

MEDIUM - Many active Google keywords are getting zero impressions

Rule KW-010

What is happening: 1168 active keyword(s) (100% of active keywords) received zero impressions in the data period. Common causes: bid below first page, low search volume, disapproval, or keyword-level policy restrictions.

Estimated business impact: Zero-impression active keywords inflate account clutter, mask Quality Score problems, and can indicate disapproved ads that need immediate attention.

Active Keywords Total 1168

Zero Impression Keywords 1168

Zero Impression Share Percent 100

Confidence: medium. Ease of implementation: medium.

- Check Google Ads status column for 'Below first page bid', 'Low search volume', or 'Disapproved'.
- Pause keywords labelled 'Low search volume' — they consume account resources without contributing.
- For keywords showing 'Below first page bid', evaluate whether raising the bid is justified by relevance.
- Remove duplicate keywords that overlap with better-performing broad or phrase match versions.

What to do this week, in order

This sequence prioritizes business impact first, then confidence and ease of implementation.

1. The TUESDAY dayOfWeek segment is wasting PKR 3,465: Review the TUESDAY dayOfWeek segment in the platform UI to confirm the underperformance. (~1 hour) -> PKR 3,465 in this segment is recoverable by reducing or excluding it. Reallocate to segments performing at or below the PKR 146 baseline CPA.
2. No Google brand campaign detected — brand traffic is unprotected: Create a dedicated branded keyword campaign with exact and phrase match variants of your brand name. (~1 hour) -> Unprotected brand searches allow competitors to capture your highest-intent traffic at no cost to you.
3. Many active Google keywords are getting zero impressions: Check Google Ads status column for 'Below first page bid', 'Low search volume', or 'Disapproved'. (Half day) -> Zero-impression active keywords inflate account clutter, mask Quality Score problems, and can indicate disapproved ads that need immediate attention.

Method

- Numbers: Every figure comes from deterministic rule evidence or normalized account data. The renderer does not invent chart values.
- Benchmarks: Peer, historical, or industry comparisons are shown only where available.
- Confidence: Confidence labels are derived from rule evidence, severity, and sample notes rather than model guesswork.
